International Journal of Distributed Sensor Networks
Editor-in-Chief
Prof. Dr. Sundaraja S. Iyengar

Dear Prof. Iyengar,

I would like to submit the attached manuscript, "A Comprehensive Approach to Power Management in Embedded Systems", for consideration for possible publication in the International Journal of Distributed Sensor Networks.

In respect to a nomination for editor, I am not sure about JDSN policy, but Prof. Dr. Richard Brooks's work on dynamic power management in embedded real-time systems has a good interface to the manuscript.

This paper has not been published or accepted for publication and it is not under consideration at another journal.

Sincerely,

Antônio Augusto Fröhlich
