Error rates for different periods

- Single-shot with Clock at 7200 Hz
- Single-shot with Clock at 28800 Hz
- Single-shot with Clock at 115200 Hz
- Periodic with Clock at 7200 Hz
- Periodic with Clock at 28800 Hz
- Periodic with Clock at 115200 Hz

Alarm interrupt handler time: periodic x single-shot

| Interrupt/Approach | Periodic | Single-shot |
|---|---|---|
| Couting ticks interrupt | 14 us | - |
| Alarm release interrupt | 42 us | 212 us |

Mean period and standard deviation for each time strategy
